PROFICIENCY TESTING (PT) / INTERLAB COMPARISON

3. Memastikan dokumen untuk *Interlab comparison* lengkap & *artifact* berkeadaan baik & bateri spare disediakan untuk Interlab seterusnya.

4

PROFICIENCY TESTING (PT) / INTERLAB COMPARISON

4. Menyediakan lebih banyak *Interlab Comparison* untuk *temperature scope* terutamanya termometer digital.

5

PROFICIENCY TESTING (PT) / INTERLAB COMPARISON

5. PT Testing should be conducted by every approved signatory but not only one result per laboratory in order to maintain/check competency of every approved signatory

This suggestion is due to too many users/customers' feedback regarding variant test result from different SAMM accredited laboratory for same sample.

15

APPROVED SIGNATORY / SP6

15. The requirements for SAMM Approved and Alternate Signatories differ from the criterion set by regulatory authorities.

Explanation:

• **SAMM REQUIREMENTS**

- i. Signatory approval may also be granted to personnel registered under the regulatory organization providing recognition (exp: BEM, IKM, etc)
- ii. Can be part-time
- iii. Shall attend Measurement Uncertainty training before get the approval

• **OTHER REQUIREMENTS**

- i. Not compulsory to be registered under the above regulatory organizations, depending on years experience working in the relevant field.
- ii. Can't be part-time
- iii. Training Measurement Uncertainty is not compulsory before approval is given.

- Regarding those requirements, accredited laboratory will faces confusions if incumbent approved signatories suddenly resign, because we shall comply with both requirements
