SAMM CIRCULAR 2/2017

**POLICY ON SKIM AKREDITASI MAKMAL MALAYSIA (SAMM)
CERTIFICATE AND SCOPE OF ACCREDITATION**

This circular is to inform SAMM laboratories on implementation of new format for the certificate and scope of accreditation.

Beginning **June 2017**, Standards Malaysia will issue laboratories' certificate and scope of accreditation with Quick Response Code (QR code). The laboratories may scan the QR Code or visit www.jsm.gov.my/cab-directories for the accreditation status and/or current scope of accreditation.

Implementation of this circular takes immediate effect from the date of publication of this circular. However, certificate and scope of accreditation with QR code will be issued in stages, starting with laboratories that newly accredited, had completed their reassessments and any amendments required to the certificate such as Extension of Scope (EOS), change of organisation name or location.

THANK YOU

Director of Accreditation
