ACB Circular 7/2017

Date : 6 November 2017

The Scheme for the Accreditation of Certification Bodies (The ACB Scheme) ACB CIRCULAR 7/2017

WITHDRAWAL OF ACB-MDQMS – SUPPLEMENTARY REQUIREMENTS FOR BODIES OPERATING MEDICAL DEVICE QUALITY MANAGEMENT SYSTEMS CERTIFICATION AND DIRECT USE OF IAF MD 9 – APPLICATION OF ISO/IEC <u>17021-1 IN THE FIELD OF MEDICAL DEVICE QUALITY MANAGEMENT</u> SYSTEMS (ISO 13485)

1. Introduction

On 9 June 2017, the International Accreditation Forum (IAF) published IAF MD 9:2017 – Application of ISO/IEC 17021-1 in the Field of Medical Device Quality Management Systems (ISO 13485).

Subsequently, ACB-MDQMS – Supplementary Requirements for Bodies Operating Medical Device Quality Management Systems Certification is to be withdrawn and IAF MD 9: 2017 is to be directly used.

This circular applies to all Certification Bodies (CBs) accredited to Medical Device Quality Management Systems (MDQMS).

2. Objective

This circular is aimed to inform all accredited MDQMS CBs on the transition arrangements to be carried out by certification bodies.

3. Requirements

3.1 Accredited Certification Bodies

- i. Certification bodies (CB) are advised to review IAF MD 9: 2017, conduct a gap analysis, train personnel, and update relevant documentation, where necessary. Certification bodies are required to document and submit to Standards Malaysia a gap analysis to IAF MD 9:2017 prior to the transition assessment.
- ii. Standards Malaysia shall assess all related accredited certification bodies against the new standard as part of the annual office assessments beginning <u>9 June 2018</u>. A verification assessment may be carried out to verify compliance against the new standard.

- iii. Findings to the new IAF MD 9:2017 shall be raised as nonconformance or observations depending on the nature of the subject matter. Corrective actions for the non-conformances shall be verified and closed out before recommendation for accreditation to MDQMS based on ISO/IEC 17021-1:2015 and IAF MD 9: 2017 can be granted.
- iv. If a certification body fails to comply with IAF MD 9:2017 by 9 June 2018, the certification body shall be <u>suspended</u> for a maximum of 3 months. After the suspension period, failure to take any action would result in <u>withdrawal</u> of accreditation of the certification body.

3.2 New Application:

- i. All new applications received after <u>the date of publication of</u> <u>this circular</u> shall be assessed against ISO/IEC 17021-1:2015 and IAF MD 9:2017.
- ii. For existing applicants, assessments after **9 June 2018** shall be assessed against IAF MD 9:2017.

3.3 Extension of Scope:

i. Extension of scope after <u>the date of publication of this</u> <u>circular</u> shall be based on IAF MD 9:2017.

4. Validity of ACB-MDQMS

The status of accreditation to ACB-MDQMS will remain valid until the certification body achieves the transition or until the end of the transition period, i.e <u>9 June 2018</u>.

THANK YOU

Director of Accreditation
