

Industrial-process measurement, control and automation				
No	Category	MS/ISO Code	MS/ISO Title	Preview
1	Industrial-process measurement, control and automation	IEC 60381-1	Analogue signals for process control systems. Part 1: Direct current signals	
2	Industrial-process measurement, control and automation	IEC 60381-2	Analogue signals for process control systems. Part 2: Direct voltage signals	
3	Industrial-process measurement, control and automation	IEC 60382	Analogue pneumatic signal for process control systems	
4	Industrial-process measurement, control and automation	IEC 60946	Binary direct voltage signals for process measurement and control systems	
5	Industrial-process measurement, control and automation	IEC 61506	Industrial-process measurement and control - Documentation of application software	
6	Industrial-process measurement, control and automation	IEC 62419	Control technology - Rules for the designation of measuring instrument	
7	Industrial-process measurement, control and automation	IEC 62424	Representation of process control engineering - Requests in P&I diagrams and data exchange between P&ID tools and PCE-CAE tools	
8	Industrial-process measurement, control and automation	IEC TS 62443-1-1	Industrial communication networks - Network and system security - Part 1-1: Terminology, concepts and models	
9	Industrial-process measurement, control and automation	IEC 62443-2-1	Industrial communication networks - Network and system security - Part 2-1: Establishing an industrial automation and control system security program	

Industrial-process measurement, control and automation				
No	Category	MS/ISO Code	MS/ISO Title	Preview
10	Industrial-process measurement, control and automation	IEC TR 62443-2-3	Security for industrial automation and control systems - Part 2-3: Patch management in the IACS environment	
11	Industrial-process measurement, control and automation	IEC 62443-2-4	Security for industrial automation and control systems - Part 2-4: Security program requirements for IACS service providers	
12	Industrial-process measurement, control and automation	IEC TR 62443-3-1	Industrial communication networks - Network and system security - Part 3-1: Security technologies for industrial automation and control systems	
13	Industrial-process measurement, control and automation	IEC 62443-3-2	Security for industrial automation and control systems - Part 3-2: Security risk assessment for system design	
14	Industrial-process measurement, control and automation	IEC 62443-3-3	Industrial communication networks - Network and system security - Part 3-3: System security requirements and security levels	
15	Industrial-process measurement, control and automation	IEC 62443-3-3	Corrigendum 1 - Industrial communication networks - Network and system security - Part 3-3: System security requirements and security levels	
16	Industrial-process measurement, control and automation	IEC 62443-4-1	Security for industrial automation and control systems - Part 4-1: Secure product development lifecycle requirements	

Industrial-process measurement, control and automation				
No	Category	MS/ISO Code	MS/ISO Title	Preview
17	Industrial-process measurement, control and automation	IEC 62443-4-2	Security for industrial automation and control systems - Part 4-2: Technical security requirements for IACS components	
18	Industrial-process measurement, control and automation	IEC 62832-1	Industrial-process measurement, control and automation - Digital factory framework - Part 1: General principles	
19	Industrial-process measurement, control and automation	IEC 62832-2	Industrial-process measurement, control and automation - Digital factory framework - Part 2: Model elements	
20	Industrial-process measurement, control and automation	IEC 62832-3	Industrial-process measurement, control and automation - Digital factory framework - Part 3: Application of Digital Factory for life cycle management of production systems	
21	Industrial-process measurement, control and automation	IEC TR 62837	Energy efficiency through automation systems	
22	Industrial-process measurement, control and automation	IEC TS 62872-1	Industrial-process measurement, control and automation - Part 1: System interface between industrial facilities and the smart grid	
23	Industrial-process measurement, control and automation	IEC 62890	Industrial-process measurement, control and automation - Lifecycle-management for systems and components	

Industrial-process measurement, control and automation				
No	Category	MS/ISO Code	MS/ISO Title	Preview
24	Industrial-process measurement, control and automation	IEC TR 63069	Industrial-process measurement, control and automation - Framework for functional safety and security	
25	Industrial-process measurement, control and automation	IEC PAS 63088	Smart manufacturing - Reference architecture model industry 4.0 (RAMI4.0)	
26	Industrial-process measurement, control and automation	IEC PAS 63131	System control diagram	
27	Industrial-process measurement, control and automation	IEC TS 63164-1	Reliability of industrial automation devices and systems - Part 1: Assurance of automation devices reliability data and specification of their source	
28	Industrial-process measurement, control and automation	IEC TR 63164-2	Reliability of industrial automation devices and systems - Part 2: System reliability	
29	Industrial-process measurement, control and automation	IEC PAS 63325	Lifecycle requirements for functional safety and security for IACS
